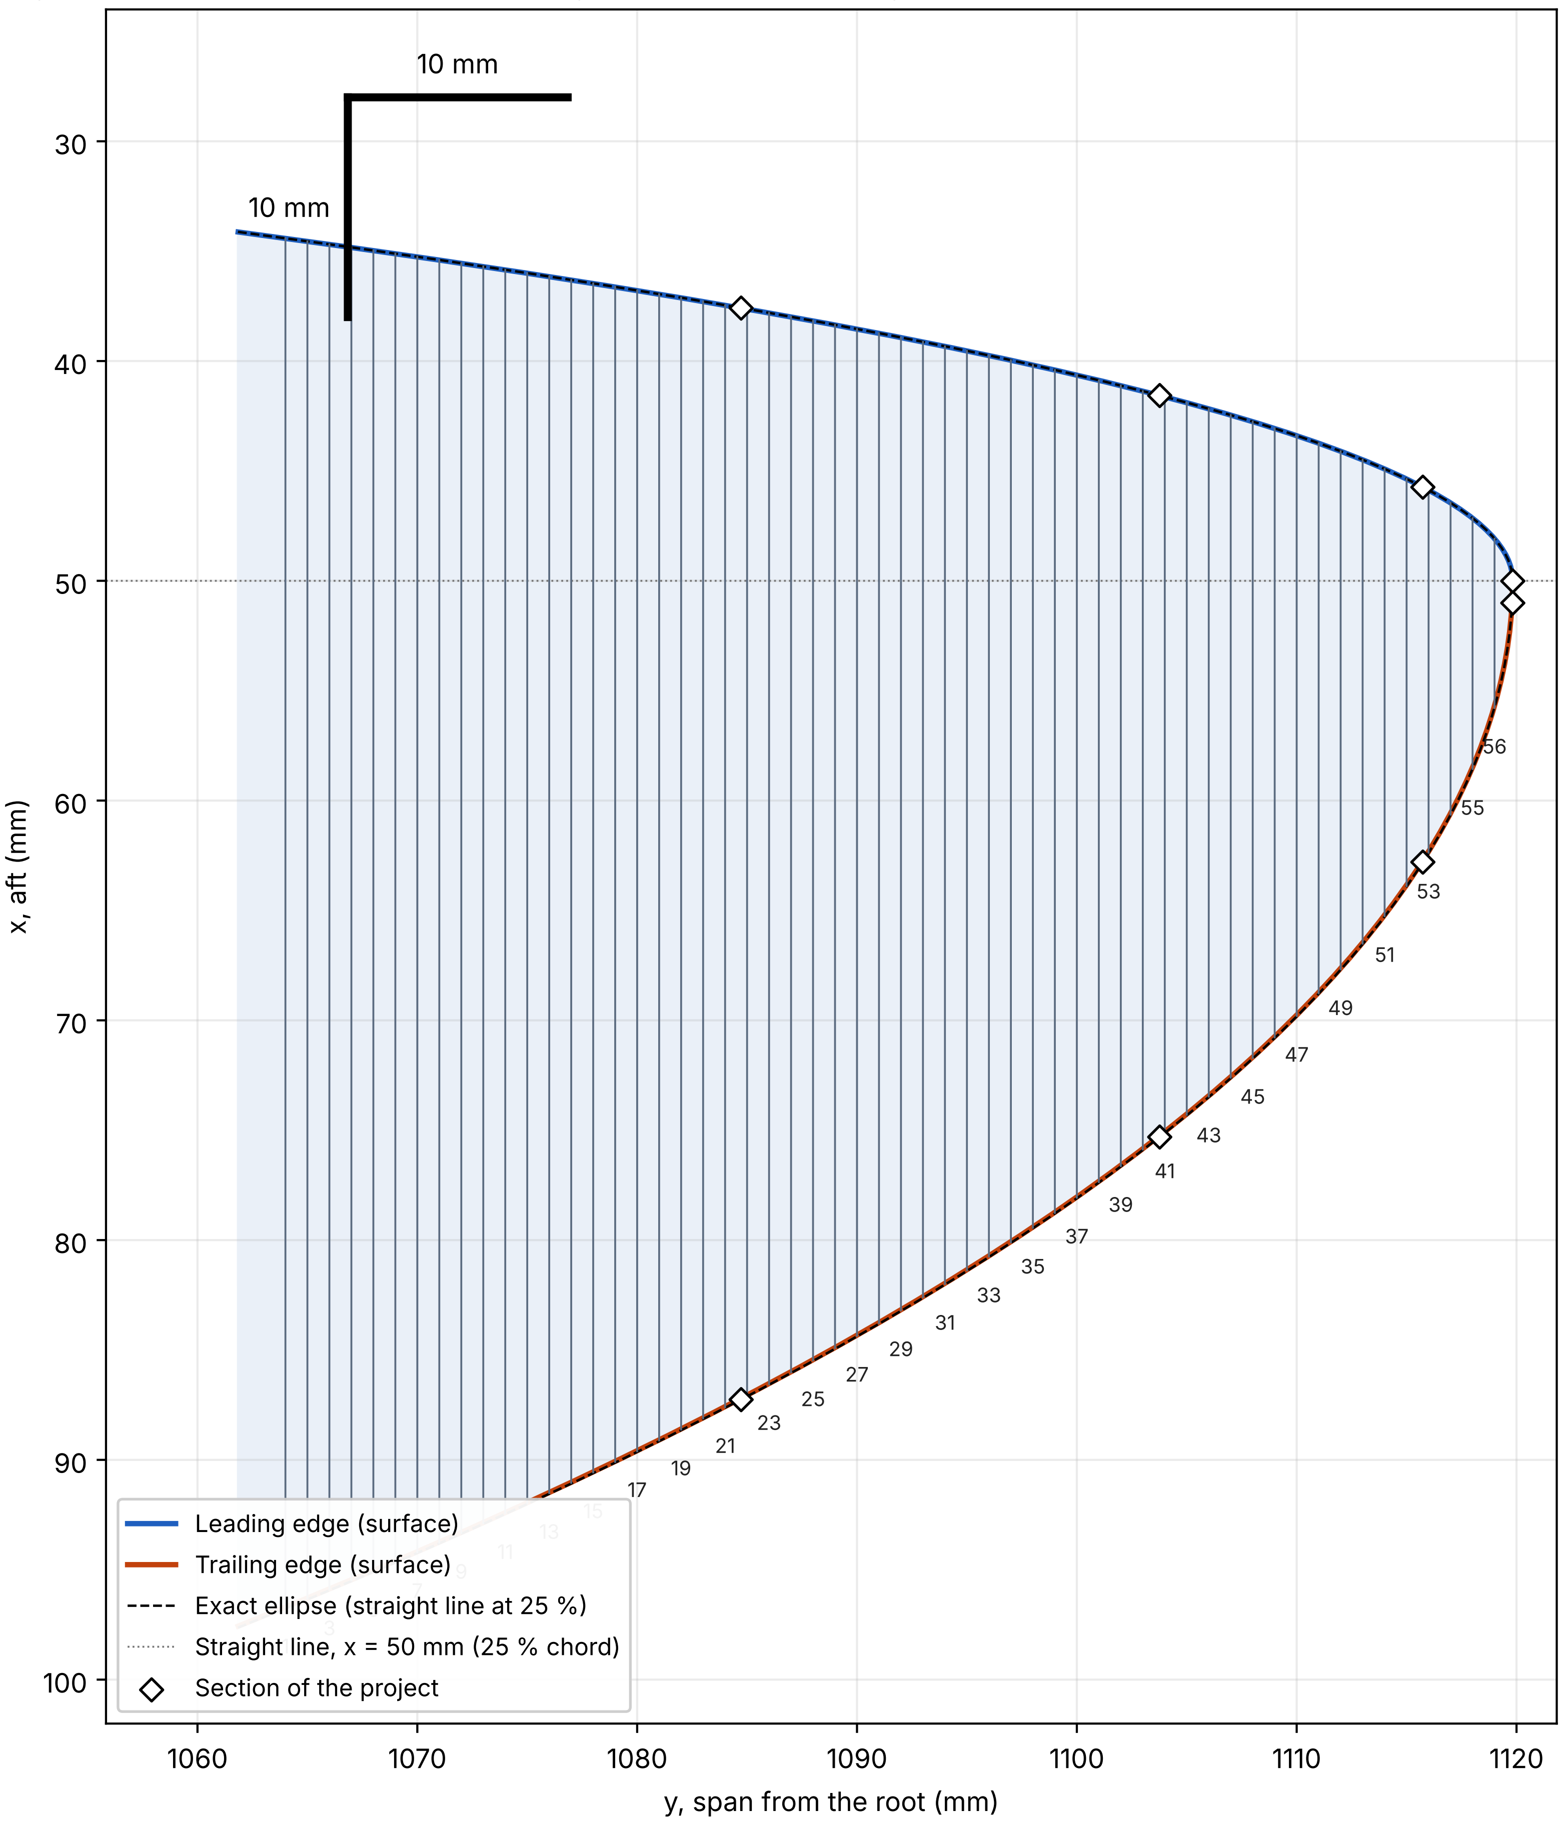
Glider with "Continue the ellipse": top view of the outer 5 % of the half span, y = 1063.8 to 1119.83 mm (point).
56 cuts at y = const, 1 mm apart, numbered 1 (y = 1064 mm) to 56 (y = 1119 mm). Odd numbers labelled. Equal scale in x and y.



Profiles below: each cut of the 3D surface (the STEP surface) in the plane y = const, seen from the wing tip, leading edge left. All drawn at one scale (scale bar in cut 1).
Grey line: x = 50 mm, the straight line at 25 % chord. Dashed ticks: leading and trailing edge of the exact ellipse at that y.
Per cut: number, y, distance to the point, measured chord, deviation of the chord from the ellipse (Δc), profile height h. The trailing edge is 0.4 mm thick (Settings > Trailing edge).
